PART 340-MINIMUM PRICE SCHEDULE, DISTRICT No. 20

ORDER GRANTING RELIEF

Order granting temporary relief and conditionally providing for final relief in the matter of the petition of Utah Blue Diamond Coal Company for the establishment of price classifications and minimum prices for the coals of the Utah Blue Diamond Mine for shipment by Rail.

An original petition, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, having been duly filed with this Division by the above-named party, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of the Utah Blue Diamond Mine, Mine Index No. 178, of the Utah Blue Diamond Coal Company, located in Subdistrict 1 in District No. 20; and

It appearing that a-reasonable showing of necessity has been made for the granting of temporary relief in the manner hereinafter set forth; and

No petitions of intervention having been filed with the Division in the aboveentitled matter; and

The following action being deemed necessary in order to effectuate the purposes of the Act;

It is ordered, That, pending final dis-

position of the above-entitled matter. temporary relief is granted as follows: Commencing forthwith, § 340.4 (Code member price index) is amended by adding thereto Supplement R, which supplement is hereinafter set forth and hereby made a part hereof.

It is further ordered, That pleadings in opposition to the original petition in the above-entitled matter and applications to stay, terminate or modify the temporary relief herein granted may be filed with the Division within forty-five (45) days from the date of this order, pursuant to the rules and regulations governing practice and procedure before the Bituminous Coal Division in proceedings instituted pursuant to section 4 II (d) of the Bituminous Coal Act of 1937.

It is further ordered, That the relief herein granted shall become final sixty (60) days from the date of this order, unless it shall otherwise be ordered.

Petitioner requests the establishment of minimum rail prices of \$3.75 and \$2.65 per ton f. o. b. the mine for the coals of the Utah Blue Diamond Mine in Size Groups 3 and 15, respectively, stating that these prices have been heretofore established and are presently in effect in those size groups for comparable coals produced by other mines in Subdistrict 1 in District No. 20. However, reference to the Schedule of Effective Minimum Prices for District No. 20 for All Shipments discloses that the minimum prices in effect for rail shipments of comparable coals produced in Subdistrict 1 in Size Groups 3 and 15 vary according to the market area to which the coal is shipped, and that the minimum prices requested by petitioner for its coals in Size Groups 3 and 15 are substantially in excess of the minimum prices in effect for comparable coals in those size groups produced in Subdistrict 1. Accordingly, the minimum prices designated in the attached schedule marked Supplement R for the coals of the Utah Blue Diamond Mine in Size Groups 3 and 15 have been conformed to those prices heretofore established and presently in effect for comparable coals produced by other mines in Subdistrict 1.

CHARLES MANOOG CO., INC.

Charles Manoog Co., Inc., 53 Chandler Street, Worcester, Massachusetts, has appealed from the provisions of Suspension Order No. S-151, issued November 23, 1942. PART 1010—SUSPENSION ORDERS [Suspension Order S-277]

ROBERT G. SYLDINGTON

Robert G. Symington is an individual residing at 104 South Seventh Street, Las Vegas, Nevada.

Subsequent to September 7, 1942, Robert G. Symington began construction without the authorization of the Director General for Operations of the War Production Board, and ordered, purchased and withdrew from inventory materials to begin construction in connection with the erection of a second story addition to his duplex residence located at 104 South Seventh Street, Las Vegas, Nevada. The estimated cost of said construction exceeded \$200.00 and the construction constituted a violation of Conservation Order I-41. At the time this construction was undertaken, Robert G. Symington was familiar with

the provisions of Conservation Order

The beginning of this construction by Robert G. Symington constituted a wilful violation of Conservation Order I_41 which has hampered and impeded the war effort of the United States. In view of the foregoing facts, It is hereby ordered. That:

§ 1010.277 Suspension Order No. S-277. (a) Neither Robert G. Symington, his successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory or in any manner secure or use material or construction plant in order to continue or complete construction of the remodeling of the premises situated at 104 South Seventh Street, Las Vegas, Nevada, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Robert G. Symington from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS
[Suspension Order S-290, Amendment 1]
ARTISTIC BRONZE TABLET CO., INC.

Artistic Bronze Tablet Co., Inc. of Brooklyn, New York, has appealed to the War Production Board for relief from the terms of Suspension Order S-290, issued April 22, 1943. It now appears that, since the Compliance meeting took place, this company has obtained orders from the Wright Aeronautical Corporation, a division of Curtis-Wright Corporation, all of which bear high ratings. In view of the foregoing, paragraph (a) of \$1010.290, Suspension Order S-290 issued April 22, 1943 is hereby amended to read as follows:

(a) Deliveries of material to Artistic Bronze Tablet Company, Inc., its successors and assigns, shall not be accorded priority over deliveries under any other contract or order and no preference rating shall be applied or assigned to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, and any other order or regulation of the War Production Board except as hereafter specifically authorized by the War Production Board: Provided, That the provisions of this paragraph shall not apply to deliveries of material required by Artistic Bronze Tablet Co., Inc. to fill orders bearing a preference rating of AA-3 or higher.

PART 1010—SUSPENSION ORDERS [Suspension Order S-307]

LITTLE RIVER SAND AND GRAVEL DEVELOPMENT

The Little River Sand & Gravel Development, a partnership composed of Sidney G. Myers, Joseph G. Sellwood, and Richard M. Sellwood, Jr., with an office at 530 Giddens-Lane Building, Shreveport, Louisiana, operates machinery producing sand and gravel from Little River, Arkansas. The gravel is produced by dredge and is loaded on barges and transported to respondent's plant where it is processed. On February 19, 1943, the Kansas City Southern Railway Company extended a preference rating of A-1-j to the partnership for its products; the partnership extended this rating to obtain 30,964 pounds of steel valued at approximately \$1,400.00, in order to construct a new steel barge and tugboat to be used for transporting gravel. This extension was in violation of Priorities Regulation No. 3. Representatives of the Little River Sand & Gravel Development twice conferred with the Shreveport, Louisiana, office of the War Production Board prior to the purchase of the steel, concerning comprehensive changes in plant equipment. They were advised that, whether a change of all machinery or the purchase of this steel for a new barge was contemplated, an application must be made, but this method was not used and the partnership wrongfully extended its customer's rating. Such actions by this partnership must be deemed wilful violations of Priorities Regulation No. 3.

This wilful violation of Priorities Regulation No. 3 has diverted scarce materials to uses unauthorized by the War Production Board. In view of the foregoing facts, It is hereby ordered; That:

§ 1010.307 Suspension Order No. S-307. (a) Neither the Little River Sand & Gravel Development, nor Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, nor any other person, shall, directly or indirectly, order, purchase, accept delivery of, deliver, withdraw from inventory, or in any other manner secure or use material or construction plant to continue or complete construction of any boat, vessel, or water-craft of any description now being built by or for said Little River Sand & Gravel Development, as described, or intended to be used by or for said Little River Sand & Gravel Development, as described, except as specifically authorized in writing by the War Production Board.

(b) Deliveries of material to Little River Sand & Gravel Development, Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, shall not be ac-

corded priority over deliveries under any other contract or order and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any orders or regulations of the War Production Board, except as specifically authorized in writing by the War Production Board.

(c) No allocation shall be made to Little River Sand & Gravel Development, Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, of any material, the supply or distribution of which is governed by any order of the War Production Board, except as specifically authorized in writing by the War

Production Board.

(d) Nothing contained in this order shall be deemed to exempt the Little River Sand & Gravel Development, Sidney G. Myers, Joseph G. Sellwood, or Richard M. Sellwood, Jr., its and their successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on May 14, 1943, and shall expire on August 14, 1943, at which time the restrictions contained in this order shall be of no

further effect.

PART 1010—SUSPENSION ORDERS [Suspension Order S-314]

FREEMAN-LOS ANGELES BARBER AND BEAUTY SUPPLY CO.

Freeman - Los Angeles Barber and Beauty Supply Company, Los Angeles, California, is an individual proprietorship owned by Albert Freeman, engaged in selling barber and beauty shop equipment. On or about July 22, 1942, the company placed a purchase order with its supplier for thirty-six H. D. Progenic Clippers, certifying that such purchase order was entitled to a preference rating of A-1-i under a PD-3A certificate which it had received. At the time this purchase order was placed, the company knew that the PD-3A certificate had been cancelled and that it was not entitled to extend this preference rating on its purchase order. The company's use of such preference rating was therefore improper and its certification constituted a misrepresentation to its supplier and to the War Production Board. In view of the foregoing, It is hereby ordered, That:

§ 1010.314 Suspension Order No. S-314. (a) Deliveries of material to Albert Freeman, individually or doing business as Freeman-Los Angeles Barber and

Beauty Supply Company, or otherwise, shall not be accorded priority over deliveries under any other contract or order and no preference ratings shall be assigned or applied to such deliveries by means of preference rating certificates, preference rating orders, general preference orders, or any other orders or regulations of the War Production Board, except with the written approval of the Regional Compliance Chief, San Francisco Regional Office, War Production Board.

(b) No allocation shall be made to Albert Freeman, individually or doing business as Freeman-Los Angeles Barber and Beauty Supply Company, or otherwise, of any material the supply or distribution of which is governed by any order of the War Production Board, except with the written approval of the Regional Compliance Chief, San Francisco Regional Office, War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Albert Freeman, individually or doing business as Freeman-Los Angeles Barber and Beauty Supply Company, or otherwise, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on May 17, 1943, and shall expire on August 17, 1943, at which time the restrictions contained in this order shall be of no

further effect.

> > THE MAY COMPANY

The May Company operates a department store in Los Angeles, California. Subsequent to December 5, 1942, the effective date of Conservation Order L-41 as amended, The May Company began construction, or permitted construction to be begun for its benefit, in excess of \$200.00, the limit permitted under the Conservation Order. The May Company ordered, purchased and withdrew from inventory materials to begin this construction in connection with the remodeling and rehabilitation of its store located at Eighth and Broadway Streets in Los Angeles, California. The estimated cost of this construction approximated \$6,500.00. At the time that this remodeling and rehabilitation was begun, The May Company employed an architect and was familiar with the provisions of Conservation Order L-41. The beginning of construction as aforesaid constituted a wilful violation of Conservation Order L-41.

This wilful violation of Conservation Order L-41 has diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, It is hereby ordered, That:

§ 1010.318 Suspension Order .No. S-318. (a) Neither The May Company, its successors or assigns, nor any other person, shall order, purchase, accept delivery of, withdraw from inventory or in any manner secure or use material or construction plant in order to begin construction or to continue construction, including but not limited to maintenance and repair, on the premises situated at Eighth and Broadway in Los Angeles, California, operated by The May Com-pany as a department store, except as specifically authorized in writing by the War Production Board.

No manufacturer shall accumulate for use in the production of any film or film base whatsoever, inventories of raw materials, sami-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production of the rates permitted by this order.

(k) Violations. Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[Direction 1 to CMP Reg. 5]

HOW TO OBTAIN ALUMINUM UNDER CAIP

The following direction is hereby issued pursuant to §3175.5, CMP Regulation No. 5:

(a) The word "patterns" as used in the following instructions means only match plates, patterns, core bases, core driers, and map flacks made of aluminum. It does not include such items as jigs, fixtures, or forming blocks.

(b) Patterns (including finished aluminum patterns) are castings under CMP and hence controlled materials.

(c) When the purchaser of a pattern furnishes the pattern foundry with all the required weight of aluminum in the form of obsolete or defective patterns:

(1) No preference rating or CMP allot-ment symbol, number or certification is required on the order to the foundry or to the pattern maker;

(2) Any foundry may remelt aluminum scrap in the form of obsolete or defective patterns furnished by the prospective purchaser of the new pattern (and only such type of aluminum scrap) without prior authorization; and

(3) Wherever possible, old pa should be used to make new patterns. old patterns

(d) When the purchaser of a pattern does not furnish all the aluminum, he may place an authorized controlled material order for aluminum patterns by affixing the symbol MRO on his order and the certification set forth in CMP Regulation No. 7, executed as provided in that regulation, provided that his orders for patterns in any calendar quarter do not exceed by more than 600 pounds the amount of obsolete or defective aluminum patterns supplied by him during such quarter to a pattern foundry for use in making his patterns. In the event that a purchaser of aluminum patterns requires in any quarter more than 600 pounds of patterns in excess of the weight of those turned in by him in that quarter as provided in the previous sentence, he may apply for an allotment for the excess by letter to the Aluminum and Magnesium Division of the War Production Board, Washington, D. C. Ref: Patterns. Such letter must show:

(1) The weight of aluminum patterns applied for during the particular quarter (that is, the weight of aluminum required over and above (i) the weight of his obsolete or defective patterns available for remelting in the particular quarter or already turned in to his pattern foundry during the particular quarter for remelting into new patterns, plus (ii) 600 pounds which is available without specific authorization). For example, if the applicant requires 1,000 pounds of aluminum patterns for the third quarter of 1943 and intends to turn in 100 pounds of obsolete or defective aluminum patterns to his pattern foundry for remelting in that quarter, he should apply for 300 pounds, that is 1,000 pounds less the 100 pounds turned in and the 600 pounds available without specific authorization; and

(2) The weight of obsolete or defective aluminum patterns which will be or have been supplied by the applicant to the pattern foundry making his patterns during the quarter covered by the application, and why the applicant will be unable to turn in additional amounts of such old patterns.

(e) If the application is granted, the applicant will receive an allotment and may place an authorized controlled material order for the amount of aluminum patterns covered by the allotment by endorsing his purchase order with the symbol contained on the allotment and with a certification described in CMP Regulation No. 7, executed as provided in that regulation.

(f) Pattern manufacturers are hereby authorized to use the MRO symbol endorsed on their customers' orders to obtain aluminum pattern castings. Pattern manufacturers are not required to apply for an allotment of aluminum notwithstanding anything to the contrary in any CMP regulation.

(g) Pattern purchasers and pattern manufacturers, when using the MRO symbol to obtain aluminum patterns, are not subject to the 100-pound limitation provided in paragraph (c) (2) of CMP Regulation No. 5 relating to purchases of aluminum. Foundries fill only authorized controlled material orders for aluminum patterns (except as provided in paragraph (c) above,) which they may recognize by the symbol MRO and the certification described in CMP Regulation No. 7.

(h) The foregoing direction also applies to a company which makes its own aluminum patterns. Except as provided in paragraph (c) above, every such company places authorized controlled material orders on its own pattern foundry so that the foundry may make delivery of the patterns.

(i) Nothing in this direction shall be construed to relieve any person from complying with the provisions of paragraphs (c) (4) (v) and (e) (1) of Supplementary Order M-1-1. Pattern foundries, and not the purchaser or user, must file Forms CMP-19 and CMP-24 monthly.

(j) This direction supersedes the instruc-tions relating to acquisition of aluminum for the manufacture of patterns set forth in CMPL-196, dated April 13, 1943.

(5) "Manufacturer" means any person who packages any drug under his own brand name or cause, the same to be packaged for him under his own brand name, except a retailer or wholesaler whose gross sales of all such products did not exceed \$5,000.00, during the latest calendar year.

(6) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for sales to different kinds of purchasers (for example: manufacturer, wholesaler, jobber, retailer, government agency, public institution, physician, individual consumer), or for purchasers located in different areas, or for different quantities or under different conditions of sale.

(7) "Packaged drug priced under the General Maximum Price Regulation" 1 means a packaged drug for which a maximum price for sales by the manufacturer was established under the General Maximum Price Regulation prior to

May 12, 1943.

- (8) "Old packaged drug" means a packaged drug which is produced by or for the same manufacturer as a new, changed-size or changed packaged drug and for which maximum prices for sales by the manufacturer were established under the General Maximum Price Regulation prior to May 12, 1943, or, prior to pricing the new, changed-size or changed packaged drug, were established under this or any other applicable regulation now issued or which may be issued by the Office of Price Administration.
- (9) "New packaged drug" means a packaged drug for which maximum prices for sales by the manufacturer have not been established and which is to be sold under a name different from any used by him for an old packaged drug.
- (10) "Changed-size packaged drug" means a packaged drug for which maximum prices for sale by the manufacturer have not been established and which is to be sold under the same name as used by him for one or more sizes of an old packaged drug, but which differs from any such old packaged drug in the number of quantity units of drug contained therein.
- therein.
 (11) "Quantity unit" means the single unit (tablet, capsule, ampoule, etc.) in which a drug is formed or shaped or the unit of weight or volume in which a bulk drug (liquid, powder, paste, etc.) is measured.
- (12) "Changed packaged drug" means a packaged drug for which maximum prices for sales by the manufacturer have not been established and which is to be sold under the same name as used by him for one or more sizes of an old packaged drug, but which differs therefrom in formula, form of quantity unit, or container.
- (13) "Difference in formula" means a change in the character or amount of any ingredient of a quantity unit of a drug, or the elimination or addition of any ingredient.

- (14) "Difference in form of quantity unit" means a change, for example, from a tablet to a capsule or from a liquid to a solid.
- (15) "Difference in container" means a difference in the actual container (such as bottle, carton, tube, can, etc.), the closure or the carton.
- closure, or the carton.

 (16) "Most comparable packaged drug relected by the procedure set forth below. The steps in the procedure of selection are to be applied in the order listed until only one old packaged drug is left which is "the most comparable packaged drug". If any step eliminates all the old packaged drugs selected by the preceding step in the list, there shall be applied to such old packaged drugs the first succeeding step in the list which will select at least one such old packaged drug.
- (i) The manufacturer shall first select his old packaged drugs which belong to the same general class (proprietary medicine or other drug) as the new packaged drug; and as to which the manufacturer performs the same functions (packaging and distributing, distributing finished product packaged by another) as for the new packaged drug;

(ii) Then from these he shall select those which belong to the same subsidiary class (pharmaceutical specialty, non-specialty pharmaceutical, household staple family medicine, private brand line) as the new packaged drug;

(iii) Then from these he shall select those which are distributed through the same or similar channels of distribution as the new packaged drug;

(iv) Then from there he chall relect those having the same or similar medicinal use as the new packaged drug;

(v) Then from these he shall select those having the same or similar physical form (liquid, paste, cream, solid, powder, capsule, ampoule, tablet, etc.) as the new packaged drug and from these he shall select the one containing the number of quantity units of drug most similar to that contained in the new packaged drug; or,

(vi) If step (v) is inapplicable, he shall select the one which has a unit direct cost most similar to that of the

new packaged drug.

- (17) "Base price" means the manufacturer's list price to which discounts and allowances are applied to determine the price of a packaged drug to various classes of purchasers. Such base price may be a price such as the following: a suggested retail price, a price to retailers, a price to physicians, a price to wholesalers. In the case of an old packaged drug, the base price and discounts and allowances to be used shall be those in effect at the time the maximum prices for sales of such old packaged drug by the manufacturer were first established. If the list price varies according to the quantity sold, the list price used shall be the list price for sales of the smallest quantity.
- (18) "Suggested price" means the suggested price in effect on May 12, 1943, or, if the packaged drug is one which has a uniform maximum price for sales by wholesalers to retailers or by retailers to individual ultimate consumers estab-

lished under this or any other applicable regulation now issued or which may be issued by the Office of Price Administration, the uniform maximum price so established.

(19) "Unit direct cost" means the sum of the costs for a single packaged drug of direct labor and materials, computed on the basis of the wage rates, material costs, and operating conditions defined below: Provided, That, if the packaged drug is purchased in packaged form from a private formula manufacturer, the unit direct cost is the net delivered cost per package of the packaged drug not in excess of the applicable maximum price therefor.

(i) Wage rates. The wage rates used in the computation shall be no higher than the average wage rates in effect in the manufacturer's plant at the time a packaged drug is being priced under this regulation for each class of labor used.

(ii) Material costs. Material costs used in the computations shall be no higher than the maximum price at the time a packaged drug is being priced under this regulation for each material used as established under any regulation now issued or which may be issued by the Office of Price Administration. Where the maximum price for any such material may vary with the seller, the maximum price used in the computation shall be the maximum price of that seller who supplied the largest amount of such material to the manufacturer during the six-month period immediately precoding the time a packaged drug is being priced under the regulation, or lacking such a seller, the maximum price of the manufacturer's potential supplier thereof. If the material has no maximum price, or if the actual purchase price is lower, the actual purchase price shall be used.

Where the material whose cost is being determined is tax paid alcohol, the price specified above shall be the price for such alcohol, fully tax paid without drawback, less the following amounts:

- (a) If the material costs are being determined for an old packaged drug whose maximum price was established prior to November 1, 1942, or whose maximum price as established since that date under this regulation is the same as the maximum price of a packaged drug sold under the same name whose maximum price was established prior to November 1, 1942, \$2.00 per proof gallon.
- (b) If material costs are being determined for any other packaged drug, \$3.75 per proof gallon.
- (iii) Operating conditions. The computation shall be made on the basis of the production technique employed in the plant at the time a packaged drug is being priced and on the basis of the actual volume of production of the old packaged drug and the contemplated volume of production of the packaged drug being priced.

(20) "Trade practices" includes credit practices and practices relating to the payment of transportation costs.

¹8 F.R. 3096, 3849, 4347, 4486, 4724, 4848, 4978.

- (21) "Transportation costs" "freight charges" shall be deemed to include the tax imposed by Section 620 of the Revenue Act of 1942 (Pub. Law 753, 77th Cong., approved October 21, 1942), as if it were a like increase in the rate or the amount charged by the carrier for the transportation in question.
- (b) Unless the context otherwise requires, the definitions set forth in section 302 of the Emergency Price Control Act of 1942, as amended, shall apply to other terms used in this regulation.

Sec. 2 Prohibition against sales of packaged drugs at higher than Maximum prices. (a) On and after May 26, 1943, regardless of any contract or other obli-

- (3) No person shall sell or deliver any packaged drug which is required to be marked under section 13 unless it has been so marked.

(4) No person shall agree, offer, solicit, or attempt to do any of the foregoing.

(b) If the buyer of a packaged drug receives from the seller a written statement that to the best of his knowledge the price charged therefor does not exceed the maximum price fixed by this regulation, and if the buyer has no reason to doubt the truth of the statement, the buyer shall be deemed to have complied with this section.

(c) Prices lower than the maximum prices may be charged and paid.

- (i) The maximum price established under the provisions of any order issued under the General Maximum Price Regulation for sales of such packaged drug by him to a purchaser of the same class or,

(iii) If there is no order applicable, and the reseller cannot determine a maximum price under § 1499.2 (b) (1), or the maximum price so determined exceeds the manufacturer's suggested price for sales of such packaged drug to a purchaser of the same class, the manufacturer's suggested price for sales of such packaged drug to a purchaser of the same class.

SEC. 6 Manufacturers' determination of maximum prices for new packaged drugs—(a) Determination by manufac-turer—(1) Manufacturers' base price. The manufacturer of a new packaged drug shall determine a base price for such packaged drugs as follows:

(i) Select the most comparable pack-

aged drug.

(ii) Calculate the unit direct cost of such most comparable packaged drug.

(iii) Calculate the unit direct cost of the new packaged drug.

(iv) Divide the base price of the most comparable packaged drug by its unit direct cost.

- (v) Multiply the unit direct cost of the new packaged drug by the multiplier obtained in subdivision (iv). The result. or any lower figure selected by the manufacturer, is the base price for the new packaged drug.
- (2) Manufacturers' maximum prices. The maximum price for sales by the manufacturer of a new packaged drug to any class of purchasers is the price obtained by applying to the base price of such packaged drug the same discounts and allowances as would have been applied to the base price of the most comparable packaged drug to determine his maximum price for sales of such most comparable packaged drug to a purchaser of the same class, or any lower price selected by the manufacturer.
- (3) Wholesalers' maximum prices for sales to retailers. The manufacturer of a new packaged drug shall establish a uniform maximum price for sales thereof by wholesalers to retailers in the smallest quantity where the new packaged drug is to be distributed through wholesalers.

new packaged drug the same trade discount or markup as the manufacturer applied to the base price of the most comparable packaged drug to determine his suggested price for sales of such most comparable packaged drug by wholesalers to retailers in the smallest quantity.

Where there is no manufacturer's suggested price for sales of the most comparable packaged drug by wholesalers to retailers, the uniform maximum price for sales of a new packaged drug by wholesalers to retailers in the smallest quantity shall be a price which bears the same relationship to the base price thereof as the price generally charged by wholesalers to retailers for sales of the most comparable packaged drug in the smallest quantity bears to the base price thereof.

(4) Retailers' maximum prices for sales to individual ultimate consumers. The manufacturer of a new packaged drug shall establish a uniform maximum price for sales thereof by retailers to individual ultimate consumers where the new packaged drug is to be sold by retailers to individual ultimate consumers.

The uniform maximum price for sales by retailers to individual ultimate consumers shall be the price obtained by applying to the base price of the new packaged drug the same trade discount or markup as the manufacturer applied to the base price of the most comparable packaged drug to determine his suggested price for sales of such most comparable packaged drug by retailers to individual ultimate consumers.

Where there is no manufacturers' suggested price for sales of the most comparable packaged drug by retailers to individual ultimate consumers, the uniform maximum price for sales of a new packaged drug by retailers to individual ultimate consumers shall be a price which bears the same relationship to the base price thereof as the price generally charged by retailers to individual ultimate consumers for sales of the most comparable packaged drug bears to the

base price thereof.

(b) Application by manufacturer—(1) Where a maximum price to a class of purchasers cannot be determined under paragraph (a). Where the manufacturer cannot determine a maximum price for sales by him of a new packaged drug to a particular class of purchasers under paragraph (a) above, he shall apply in writing to the Office of Price Administration in Washington, D. C. for determination of a maximum price to that class of purchasers. Such application shall clearly describe such class of purchasers and point out the difference from the most nearly similar class of purchasers for sales to whom a maximum price has been determined under paragraph (a). Determination of a maximum price under this subparagraph (1) may be made by the Price Administrator by letter.

(2) Where manufacturer has no most comparable packaged drug. (i) Where the manufacturer has no most comparable packaged drug, the maximum

prices for sales of a new packaged drug shall be maximum prices in line with the level of maximum prices established by this regulation, specifically authorized by the Price Administrator by letter or otherwise.

(ii) Application for determination of maximum prices for sales of such new packaged drug to all classes of purchasers shall be made in writing to the Office of Price Administration, Washington, D. C. by the manufacturer who shall submit with such application the information required by the form set out in section 22.

(3) Special research and development costs. (i) Where, because of extraordinary development and research expenses or patent or like royalty charges specifically applying to a new packaged drug, the pricing formula set out in excition (6) (a) does not result in maximum prices in line with the level of maximum prices otherwise established by this regulation, the manufacturers may apply to the Office of Price Administration for maximum prices therefor different from those established by section 6 (a).

(ii) Application for determination of maximum prices for sales of such new packaged drug to all classes of purchasers shall be made in writing to the Office of Price Administration, Washington, D. C. by the manufacturer who shall submit with such application the information required by the form set out in section 22.

Sec. 7 Manufacturers' determination of maximum prices for changed-size packaged drugs containing decreased quantity—(a) General rule. The manufacturer of a changed-size packaged drug which contains a number of quantity units of drug less than that contained in one or more sizes of an old packaged drug sold under the same name shall determine all the maximum prices for such changed-size packaged drug that he is required to determine for a new packaged drug under section 6.

The base price for such changed-size packaged drug shall be the base price of the next larger size of the old packaged drug sold under the same name reduced proportionately to the reduction in the number of quantity units. Maximum prices for such packaged drug shall be those determined by the method set forth in section 6 using the next larger size of the old packaged drug cold under the same name as the most comparable packaged drug and the bace price determined above in place of that specified in section 6 (a) (1). At the manufacturer's option the base price of the changedsize packaged drug may be the base price of the next smaller size of the old packaged drug sold under the same name, in which case such next smaller size of the old packaged drug shall be used as the most comparable packaged drug in determining maximum prices by the method set forth in section 6.

(b) Exception. Where the decrease in the number of quantity units is made necessary by circumstances beyond the manufacturer's control, the maximum

price for cales by any seller to any class of purchasers of a changed-size packaged drug which contains a number of quantity units of drug which is not less than ninety-seven per cent of the number of quantity units of drug contained in the next larger size of the old packaged drug sold under the same name shall be the maximum price established for sales by such seller to a purchaser of the same class of the next larger size of the old packaged drug sold under the same class of the next larger size of the old packaged drug sold under the same name.

This exception shall only be applicable if prior to making the decrease the manufacturer has submitted by registered mail to the Office of Price Administration in Washington, D. C. a statement of the circumstances necessitating a decrease and he has not received within twenty days of mailing his statement a written notice from the Office of Price Administration that this exception will not be

applicable to such decrease.

Sec. 8 Manufacturers' determination of maximum prices for changed-size package ed drugs containing increased quantity—(a) General rule. The maximum price for seles by any seller to any class of purchasers of a changed-size packaged drug containing a larger number of quantity units of drug than the largest size of the old packaged drug sold under the same name shall be the maximum price established for sales by him to a purchaser of the same class of the largest size of the old packaged drug cold under the same name.

(b) Exception. Where the number of quantity units of drug exceeds by more than twenty percent the number of quantity units contained in the largest size of the old packaged drug sold under the same name, maximum prices therefor may, at the manufacturers' option, be those established under the provisions of section 6, using the largest size of the old packaged drug sold under the same name as the most comparable packaged drug: Provided, That in no case shall the base price so established for a changedsize packaged drug exceed the base price of the largest size of the old packaged drug increased proportionately to the increase in the number of quantity units minus twenty percent of the base price of such largest size of the old packaged drug.

Sec. 9 Manufacturers' determination of maximum prices for changed packaged drugs—(a) General rule. The maximum price for sales by any seller of a changed packaged drug to any class of purchasers shall be the maximum price established for sales by him to a purchaser of the same class of the same size of the old packaged drug sold under the same name.

(b) Exceptions.—(1) Change in formula resulting in decrease of material costs for ingredients. Where as a result of a change in formula the material cost for ingredients per quantity unit of a changed packaged drug is less than nlnety percent of the material cost for ingredients per quantity unit of the same size of the old packaged drug sold under

the same name, maximum prices for such changed packaged drug shall be those established under the provisions of Sec. 6, using the same size of the old packaged drug sold under the same name as the most comparable packaged drug: Provided, That, if the formula of the same size of the old packaged drug has previously been changed since May 26, 1943, this exception shall be applicable if the total decrease in the material cost of ingredients per quantity unit due to changes in formula exceeds ten percent.

Material costs under this exception shall be computed in the manner set forth in section 1 (a) (19) (ii) on the bases of the operating conditions speci-

fied in section 1 (a) (19) (iii).

(2) Difference in form of quantity unit. Maximum prices for a changed packaged drug which differs in the form of quantity unit from the same size of the old packaged drug sold under the same name shall be those determined under the provisions of section 6.

Sec. 10 Manufacturers' adjustment to lower maximum prices. The manufacturer of a packaged drug for which uniform maximum prices for sales by wholesalers to retailers or for sales by retailers to individual ultimate consumers has been established under sections 6 through 10 of this regulation or of a packaged drug which is sold under the same name as such a packaged drug, and under this regulation has the same maximum prices as such packaged drug, may at any time establish lower maximum prices for sales of any such packaged drug by retailers to individual ultimate consumers or by wholesalers to retailers if at the same time he establishes proportionately lower maximum prices for sales thereof by all other sellers prior in the chain of distribution.

If the manufacturer adjusts maximum prices under this section, the lower maximum prices shall apply to all resellers' sales of such packaged drug delivered to them after such lower maximum prices are established and to all sales of the packaged 'drug by the manufacturer after such lower maximum prices are established.

SEC. 11 Reports of maximum prices determined by manufacturer. (a) Where a manufacturer has determined a changed maximum price under the provisions of sections 6 through 9 of this regulation for his sales of a packaged drug he shall, before making any delivery of such packaged drug, submit by registered mail to the Office of Price Administration in Washington, D. C. a report containing the information required by the form set forth in section 22.

(b) Where a manufacturer has determined maximum prices for a packaged drug under section 10, he shall file with the Office of Price Administration in Washington, D. C., a report showing the original and lowered maximum prices for sales by all sellers of such packaged drug.

(c) Sales or deliveries at prices not in excess of those proposed may be made by the manufacturer subsequent to mail-

ing the report required by paragraphs (a) or (b) to the Office of Price Administration. If, at the expiration of twenty days from the date of mailing the report, the manufacturer has not received from the Office of Price Administration written disapproval of the proposed maximum prices, the proposed maximum prices shall be considered as approved.

(d) The Price Administrator may by letter or otherwise adjust any such reported prices (but not retroactively) which he finds are not in conformity with the provisions of this regulation or which he determines to be excessively high. Unless a written disapproval of the reported prices is mailed to the manufacturer not more than twenty days after the mailing of the report by him, any such adjustment may only be made after giving the manufacturer notice and a reasonable opportunity to present additional evidence.

Sec. 12 Notification—(a) By manufacturers. (1) The manufacturer of a packaged drug for which a uniform maximum price for sales by wholesalers to retailers or a uniform maximum price for sales by retailers to individual ultimate consumers have been established under the provisions of sections 6 through 16 of this regulation shall:

(i) With or prior to the first delivery of any such packaged drug to a whole-saler, furnish such wholesaler a written notice containing the following information:

(a) The manufacturer's maximum price for sales to the wholesaler.

(b) Wholesaler's uniform maximum price to retailers, if one has been established.

(c) Retailers' uniform maximum price individual ultimate to consumers, if one has been established.

(d) A statement that wholesalers' and retailers' maximum prices are subject to the customary discounts, allowances and trade practices in effect on sales by the seller to a purchaser of the same class during April 1943 of the packaged drug most nearly like the packaged drug being priced or, if he did not sell such packaged drug during April 1943, during the first month thereafter in which he sold such packaged drug.

(e) A statement that the Office of Price Administration requires the notice to be kept for inspection by any purchaser during ordinary business hours.

Such maximum prices shall be those determined by the method set forth in section 6, using the next larger size of the old packaged cosmetic sold under the same name as the most comparable packaged cosmetic.

(2) At the manufacturer's option, maximum prices for such changed-size packaged cosmetic shall be the same as the maximum prices that would be computed under section 6 using the next smaller size of the old packaged cosmetic sold under the same name as the most comparable packaged cosmetic and considering the number of quantity units in the changed-size packaged cosmetic to be the number contained in the next smaller size of the old packaged cosmetic sold under the same name.

(b) Exception. PART 1408-GLASS AND GLASS CONTAINERS [MPR 382]

WIDE MOUTH GLASS CONTAINERS

In the judgment of the Price Administrator, it is necessary and proper, in order to effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, to replace the General Maximum Price Regulation and Maximum Price Regulation No. 1884 with a separate regulation establishing as the maximum prices for wide mouth glass containers the prices prevailing with respect thereto on July 1, 1941.

So far as practical, the Price Administrator has consulted with representatives of the trade which will be affected by this regulation. The maximum prices established by this Regulation are, in the judgment of the Price Administrator, generally fair and equitable and in conformity with the general level of prices prevailing on July 1, 1941. The prices prevailing between October 1 and 15, 1941, have been ascertained and given due consideration by the Administrator, but he has found that those prices are not generally representative because of abnormal market conditions and an inflationary increase in prices on October 1, 1941, so that they are inappropriate from the point of view of the standards set forth in the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328. A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

§ 1408.51 Maximum prices for wide mouth glass containers. Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, Maximum Price Regulation No. 382 (Wide Mouth Glass Containers), which is annexed hereto and made a part hereof, is hereby issued.

AUTHORITY: §1408.51 issued under Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1.1 Furpose and scope of this regulation: Effect of this regulation on other regulations. The purpose of this Maximum Price Regulation No. 382 is to establish maximum prices for the cale by manufacturers of wide mouth glass containers, as defined in section 1.11 (a) hereof.

The term "container" will be used hereafter in this regulation instead of the term "wide mouth glass container," and is to be understood in all cases, except where specifically defined otherwise, as meaning "wide mouth glass conto ner." The term "container," as used in this regulation, shall not in any case be taken to mean a shipping case, carton, box, or package for the shipment of wide mouth glass containers or any other commodity. Any such shipping or reshipping carton, case, box, or package will be referred to in this regulation by the term "carton."

The provisions of this regulation shall be applicable to the forty-eight states of the United States and the District of Columbia. This regulation shall apply to all sales of containers which are delivered within the continental United States even though the vendor may be located outside the United States. This regula-tion shall not apply to any deliveries of containers to points outside the continental United States.

The maximum prices for export sales of containers shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation 5 issued by the Office of Price Administration.

The provisions of this regulation supercede the provisions of the General Maximum Price Regulation and of Maximum Price Regulation No. 183 with respect to sales and deliveries for which maximum prices are established by this regulation.

The maximum prices for the sale of cartons as such by or to manufacturers of containers shall be determined in accordance with the provisions of the maximum price regulations issued by the Office of Price Administration applicable to such cartons, including, but not restricted to, Maximum Price Regulation No. 187° and Maximum Price Regulation No. 195.

Sec. 1.2 Prohibition against the sale of containers at higher than maximum prices. On and after May 27, 1943, regardless of any contract, agreement, lease, or other obligation, no manufacturer shall sell or deliver any containers, as defined in secton 1.11 (a) hereof, and no person shall buy or receive any of the foregoing products in the course of trade or business from a manufacturer, at prices higher than the maximum prices set forth in this regulation, and no person shall agree, offer, solicit, or attempt to do any of the foregoing. The provisions of this section shall not be applicable to sales or deliveries of containers to a purchaser if prior to May 27, 1943, such containers had been received by a carrier, other than a carrier owned or controlled by the seller, for shipment to such purchaser.

SEC. 1.3 Permission to sell containers at less than maximum prices. Lower prices than those set forth in this regulation may be charged, demanded, paid, or offered.

Scc. 1.4 Requirement of maintenance of standard quality in containers. No container shall be reduced in quality below its quality as of July 1, 1941, which requires the maintenance of commercial quality as defined in section 1.11 (a) (5) below, unless the price is likewise and proportionately reduced.

The amount of tax permitted to be added by this provision shall in no event exceed that paid by the purchaser, consumer, or user.

Supplementary Order No. 31° issued by the Office of Price Administration, dealing with the treatment of the tax on transportation of property imposed by the Revenue Act of 1942, shall be applicable to sales of containers under this regulation.

Sec. 1.7 Evasion. The price limitations set forth in this regulation shall not be evaded, whether by direct or indirect methods, in connection with an offer, solicitation, agreement, sale or delivery, purchase or receipt of or relating to containers alone or in conjunction

with any other commodity or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by tying agreement or other trade understanding, or otherwise.

If shipment is by rail, water, or by rail and water, the point of delivery is the rail siding or unloading dock nearest the point designated by the purchaser. the shipment is by truck, the point of delivery is any point served by the motor carrier and designated by the purchaser.

(2) Delivery services for which the manufacturer may make a separate

(c) Less-than-carload shipments. On shipments of containers in a less-thancarload quantity, the manufacturer may, in arriving at the maximum price, add to the sum of the base prices and the zone price differentials a transportation charge not in excess of the proportion of total freight which was or would have been charged by the manufacturer for such shipment to a purchaser of the same class on July 1, 1941.

#### Article III—Maximum Prices for the Western Area

Sec. 3.1 Application. The provisions of this article shall apply to all sales of containers in which the destination is within the Western Area. Sec. 3.2 Computation of maximum The maximum prices established herein afford compensation to the manufacturer not only for the sale of the containers involved, but also for certain transportation services. To compute the maximum prices for containers the manufacturer should determine the classification of purchaser to whom he is selling in accordance with the provisions of section 3.3 below. He should then ascertain the base price for the containers being sold applicable to that classification of purchaser. These base prices are set forth in the tables in section 5.2 of Article V below. To the base prices so determined, the manufacturer may add such transportation charges as are specifically permitted to be added under the provisions of section 3.4 below. The aggregate of the foregoing charges constitutes the maximum price. Sec. 3.3 Classification of purchasers. Purchasers are classified for the purpose of determining Western Area maximum prices on containers in accordance with the following classifications:

(a) Sales of standard containers. Purchasers are classified for the purpose of determining Western Area maximum prices at each time of ordering, on the basis of the amount ordered at that time, in one of the four following classes: (1) a purchaser ordering 1000 cases or more for delivery at one time; (2) a purchaser ordering 500 or more, but less than 1000 cases for delivery at one time; (3) a purchaser ordering 100 or more, but less than 500 cases for delivery at one time; (4) a purchaser ordering less than 100 cases for delivery at one time.

(b) Sales of containers other than standard containers. Purchasers are classified for the purpose of determining Western Area maximum prices as follows:

DISTRICT BOARD 15

MEMORANDUM OPINION, ETC.

In the matter of the petition of District Board No. 15 for the establishment of price classifications and minimum prices for the coals of certain mines in District No. 15; Docket No. A-1914.

In the matter of the petition of District Board No. 15 for the establishment of price classifications and minimum prices for the coals of the Taylor Mine; Docket No. A-1914 Part II. Memorandum opinion and order severing Docket No. A-1914, Part II from Docket No. A-1914 and granting temporary relief in Docket No. A-1914. Part II.

The original petition in the above-entitled matter was filed with the Division on March 20, 1943, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937, requesting the establishment, both temporary and permanent, of price classifications and minimum prices for the coals of certain mines in District No. 15. Petitioner requests that no permanent price classifications or minimum prices be established for the coals of the Taylor Mine (Mine Index No. 1675), located in Putnam County, Missouri, pending the entry of a final order in Docket No. A-179.

Petitioner alleges that the coals produced from the Taylor Mine are analogous to the coals produced from other mines in Putnam County, Missouri, and, in view of the fact that the latter coals are presently subject to temporary minimum prices established in Docket No. A-179, requests that no permanent price classifications and minimum prices be established for the coals of the Taylor Mine pending a final determination in that matter.

It appears that a reasonable showing of necessity has been made for the

granting of the relief prayed for by petitioner. However, in view of the fact that petitioner requests only the temporary establishment of price classifications and minimum prices for the coals of the Taylor Mine, it is deemed advisable to sever that portion of Docket No. A-1914 relating to such coals from the remainder of the docket and to designate the severed portion as Docket No. A-1914, Part II.

Now, therefore, it is ordered, That that portion of Docket No. A-1914 relating to the coals of the Taylor Mine (Mine Index No. 1675), of Tom Taylor in Putnam County, Missouri, Production Group 3 in District No. 15 be, and it hereby is, severed from the remainder of that docket and designated Docket No. A-1914, Part II.

It is further ordered, That pending final disposition of Docket No. A-1914, Part II, temporary relief is granted as follows: Commencing forthwith, the Schedule of Effective Minimum Prices for District No. 15 For Truck Shipments is supplemented to include the price classifications and minimum prices set forth below for the coals of the Taylor Mine CMine Index No. 1675), of Tom Taylor, for shipment by truck into all market areas.

JOE AND WALTER SOPINSKI

MEMORANDUM OPINION AND ORDER TO CEASE AND DESIST

In the matter of Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, code members.

On February 23, 1943, after notice and hearing, W. A. Cuff, a duly designated Examiner of the Division submitted a Report in which he found that code members Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, a partnership operating the White Oak Mine (Mine Index No. 1826) in Tuscarawas County, Ohio, wilfully violated:

Section 4 II (e) of the Bituminous Coal Act of 1937 the corresponding section of the Bituminous Coal Code, and the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipments,

(a) By selling and delivering from January 1, 1941, to December 31, 1941, 1331 tons of ¾" lump coal at a price of \$2.25 per net ton f. o. b. the mine, whereas the effective minimum price for such coal was \$2.35 per net ton f. o. b. the mine.

(b) By selling and delivering from February 1, 1942, to March 31, 1942 to Delmar Baer 389.65 tons of 1" slack coal at \$1.80 per ton f. o. b. the mine whereas the effective minimum price for such coal was \$1.90 per ton f. o. b. the mine.

The Examiner recommended that an order be issued directing code members to cease and desist from violating the provisions of section 4 II (e) of the Act and the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipments, or from otherwise violating the Act, the Code or rules and regulations thereunder.

Opportunity was afforded to all parties to file exceptions to the Examiner's Report. No exceptions have been filed.

I have considered the Report of the Examiner and I find that it adequately and accurately reflects the evidence disclosed in the record. Upon the basis of the proposed findings of fact, proposed conclusions of law and recommendation set forth in the Report and upon the entire record in this proceeding,

It is hereby ordered, That the proposed findings of fact and the proposed conclusions of law of the Examiner are approved and adopted as the findings of fact and conclusions of law of the Director

It is further ordered, That Joe Sopinski and Walter Sopinski, individually and as copartners, doing business under the name and style of Joe and Walter Sopinski, operating the White Oak Mine (Mine Index No. 1826) in Tuscarawas County, Ohio, their agents, employees, representatives, successors and assigns, and all persons acting or claiming to act on their behalf or interest, cease and desist from violating section 4 II (e) of the Act, the corresponding section of the Code and the Schedule of Effective Minimum Prices for District No. 4 for Truck Shipments, or from otherwise violating the provisions of the Act, the Code or orders, rules and regulations issued thereunder.

Notice is hereby given that upon failure or refusal to comply with this order, the Division may apply to a United States Circuit Court of Appeals for the enforcement thereof, or may otherwise proceed as authorized by the Act.

# [Docket No. A-1521] DISTRICT BOARD 7

order correcting opinion of the director

In the matter of the petition of District Board No. 7 for changes in the minimum prices and price classification for coals of Eccles No. 5 Mine, Mine Index No. 62, of the Crab Orchard Improvement Company in Size Group Nos. 1 and 2.

pany in Size Group Nos. 1 and 2.
On December 1, 1942, 7 F.R. 10425, the Director issued a Memorandum Opinion and Order in Docket No. A-1521 establishing price classification "A" for the coals produced at the Eccles No. 5 Mine (Mine Index No. 62) of the Crab Orchard Improvement Company, in District 7, in Size Groups 1 and 2.

On December 30, 1942, Bituminous Coal Consumers' Counsel filed a motion requesting the Director to eliminate the following statement in said opinion:

The Consumers' Counsel contended that if the structure of the ceals of Eccles No. 5 Mine had improved to such an extent that Size Groups 1 and 2 should have a new elecclication, then Size Groups 8 and 9 clack ceal for this mine should also be reclassified.

Upon re-examination of the record I find that this contention should not have been attributed to Consumers' Counsel.

The record discloses, however, that inquiry was made at the hearing with respect to reclassification of the slack sizes (Size Groups 8 and 9) by reason of the improvement in the structure of the coals produced by the Eccles No. 5 Mine, and that the explanation which appears in the opinion herein, to the effect that the analysis of the coal had not changed and that size stability is not a determining factor in the price classification of slack sizes. was made.

slack sizes, was made.

Accordingly, reference in the opinion herein to the foregoing inquiry as the contention of Consumers' Counsel should be eliminated. The opinion, therefore, need only be amended by substituting the phrase, "Inquiry was made" in place of "The Consumers' Counsel contended".

Now, therefore, it is ordered, That the motion of Consumers' Counsel is granted to the extent that the reference in the first sentence in the fourth paragraph of the Memorandum Opinion and Order of the Director, dated Dzcember 1, 1942, 7 F. R. 10425, to the contention of Consumers' Counsel is eliminated, and is, in all other respects, denied.

It is further ordered, That the said memorandum opinion and order be amended as hereinabove indicated.

[Danket No. A-1510] J-Z COAL COMPANY

MEMORALDUM OPRION AND ORDER OF THE DIRECTOR

In the matter of the petition of J—Z Coal Company, a code member producer in District No. 4, for the revision of the minimum prices of coals of Mine Index No. 2950, in Size Groups Nos. 5, 6, and 8 for truck shipments, pursuant to section 4 II (d) of the Act.

This proceeding was instituted upon a patition duly filed with the Bituminous Coal Division by the J—Z Coal Company, a code member in District 4, pursuant to section 4 II (d) of the Bituminous Coal Act of 1937. The patition requested a reduction in the effective minimum prices for certain coals in Size Groups 5, 6, and 8, produced at its mine Chine Index No. 29301, located in Subdistrict 4 of District 4, Mahoning County, Ohio. District Boards 4 and 6 filed patitions of intervention.

Pursuant to appropriate orders, and after due notice to interested persons, a hearing in this matter was held on August 11, 1942, before Charles S. Mitchell, a duly designated Examiner of the Division at a hearing room thereof at Steubenville, Ohio. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses, and otherwise be heard. Petitioner and District Board 4 appeared and participated in the hearing.

On September 10, 1942 the Examiner made and entered his Report, in which he found that petitioner's request for a

reduction in effective minimum prices for the "crop" coal produced at its mine was not supported by the evidence. He accordingly recommended that relief be denied. An opportunity was afforded all parties to file exceptions to the Examiner's Report and briefs in support thereof. No exceptions or supporting briefs have been filed.

My consideration of the record discloses that the requested revision in effective minimum prices for the coal produced at petitioner's mine in Size Groups 5, 6, and 8 does not comply with the standards set forth in sections 4 II (a) and (b) of the Act and is not required to effectuate the purposes thereof. Accordingly, I have concluded that the proposed findings of fact and the proposed conclusions of law of the Examiner should be approved and adopted as the findings of fact and the conclusions of law of the Director. Upon the basis of the record in this proceeding, the findings of fact and conclusions of law herein approved and adopted, and pursuant to section 4 II (d)

and other provisions of the Act,

It is hereby ordered, That the relief requested in the petition herein is denied.

This proceeding was instituted by an application of the Ohio Edison Company filed with the Bituminous Coal Division, pursuant to the provisions of section 4-A of the Bituminous Coal Act of 1937. The application requests exemption from the provisions of sections 4 and 4-A of the Act by virtue of section 4 II (1)¹ thereof, in that all the coal to be produced at its mine in Jefferson County, Knox Township, Ohio, is and will be produced and consumed by the applicant. District Board 6 filed a petition of intervention.

Pursuant to appropriate order,² and after due notice to interested persons, a hearing was held on December 15-16, 1941, inclusive, before D. C. McCurtain, a duly designated Examiner of the Division, at a hearing room thereof in Washington, D. C. Interested persons were afforded an opportunity to be present, adduce evidence, cross-examine witnesses

and otherwise be heard. Applicant and District Boards 2 and 6 appeared.

On September 28, 1942, the examiner filed his report in this proceeding in which he found that the coal of applicant's mine, located in Jefferson County, Knox Township, Ohio, is produced and consumed by the applicant and is transported by the applicant to itself for its own consumption, and recommended that the applicant is entitled to exemption from section 4 of the Act by virtue of the provisions of section 4 II (1) thereof; that the exemption prayed for herein should be granted, as of August 1, 1941; and that such exemption should be conditioned upon the annual filing by the applicant of verified statements indicating what changes, if any, have been effected in its coal mining activities in respect of the mine involved herein.

No exceptions have been filed to the report of the Examiner.

Upon the basis of the entire record in this proceeding, I have concluded that the report of the Examiner should be approved and that the proposed findings of fact and the proposed conclusions of law therein contained, should be adopted as the findings of fact and conclusions of law in this proceeding.

Upon the basis of said findings of fact and conclusions of law, and pursuant to section 4-A and other provisions of the Act.

It is hereby determined that the coal of the mine of Ohio Edison Company, located in Jefferson County, Knox Township, Ohio, is produced and consumed by Ohio Edison Company, is transported by Ohio Edison Company to itself for its own consumption, and is entitled to exemption from sections 4 and 4-A of the Act by virtue of the provisions of section 4 II (1) thereof;

It is further ordered, That the exemption prayed for in the application of Ohio Edison Company be, and it hereby is granted, as of August 1, 1941: Provided, however, That Ohio Edison Company file annually with the Bituminous Coal Division a verified statement indicating what changes, if any, have been effected in its coal mining activities in respect of the mine involved herein.

SEC. 2 Application to other sellers. No seller except a "retail route seller" may charge more than these community (dollars-and-cents) ceiling prices. Retail route sellers may continue to charge their present ceiling prices. The community ceiling prices shall be the only ceiling prices for such food items for "Class 1 retail stores". All other sellers must continue to charge no more than any lower ceiling prices established by any other applicable price regulation.

- SEC. 3 Posting—(a) Selling prices. All retail stores must post their selling prices for the food items listed below on the item or at or near the place where such food item is offered for sale.
- (b) Ceiling prices. All Class 1 retail stores must post in a conspicuous place in the store a list of the community ceiling prices for the food items listed below, when such list is supplied through the Office of Price Administration. Other retailers must continue to post ceiling prices as required by any other applicable regulation fixing their ceiling prices.
- (c) Class of store. All retail stores selling any one of the food items listed below must post a sign reading "OPA1", "OPA2", "OPA3", or "OPA4", whichever applies, so that it can be clearly seen by their customers. The definitions of "classes of retailers" shall be those contained in Revised Maximum Price Regulations Nos. 238 and 268, which are as follows:
- (1) Class 1 retail store is an "independent" retail store with annual gross sales of less than \$50,000.
- (2) A retail store shall be an "independent" retail store if it is not one of a group of four or more stores under one ownership whose combined annual gross sales are \$500,000 or more.
- (3) Class 2 retail store is an "independent" retail store with annual gross sales of from \$50,000 to \$250,000.
- (4) Class 3 retail store is a retail store with annual gross sales of less than \$250,000 which is not "independent".

Notice is hereby given that a declaration has been filed with this Commission under the Public Utility Holding Company Act of 1935 by Wisconsin Power and Light Company, an operating utility subsidiary of North West Utilities Company and an indirect subsidiary of The Middle West Corporation, both registered holding companies.

All interested persons are referred to said document which is on file in the office of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Wisconsin proposes to amend its Articles of Organization for the purpose of redefining the voting rights of its outstanding preferred stock to the end that:

1. Whether the proposed alteration of the voting power of the outstanding preferred stock of the declarant will result in an unfair or inequitable distribution of voting power among holders of the securities of the declarant or is otherwise detrimental to the public interest or the interests of investors or consumers.

2. Whether compliance has been effected with all state laws applicable to the proposed transactions.

3. Whether the proposed transactions comply with all applicable provisions of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder.
